

*Statement on Governor Brown's
Signing of the Second Part of the
California 'DREAM ACT'*

*Archbishop José H. Gomez
Archbishop of Los Angeles*

October 8, 2011

I am very pleased that Governor Brown has signed into law the second part of the California DREAM Act. The governor's signature clears the path for immigrant students to further their education so that they can one day contribute their talents and skills to the betterment of our society. These students have already demonstrated their academic ability and commitment; they deserve the opportunity to pursue their goals for the future.
